Math

Math: Below a 700 on Practice Tests/Real SAT/Converted NMSQT Score\

- Do the [Khan Academy](#) course (depending on how advanced you are)

How do I determine how advanced I am?

- Take the advanced unit test, if you don't get a 100%, take the medium version, and if you get 100% on that then do the lessons on advanced and skip easy/medium
 - Repeat and adjust

General Tips/FAQ:

- If and ONLY if you are consistently practicing, take a practice test every week to gauge progression
- Keep a [mistake log](#) (linked from #study-tools)

What do I read?

- Anything that challenges you
- Could it be articles, books, etc

How does reading help?

- The only way to improve in math is to practice problems.
- Therefore, the only way to improve reading is to practice reading, It will help your reading comprehension compound and you'll be able to read faster and understand the passages better.
- It doesn't have to be long, at least 15 minutes a day though.
